

Shell arts – Geelong region artists program  
Max Bell Gallery, Geelong Gallery

Floor plan – Max Bell Gallery

**Please note:**

- all measurements are in cm and are approximate
- diagram is not to scale

**Height of gallery** (from floor to picture rail) – 348 cm

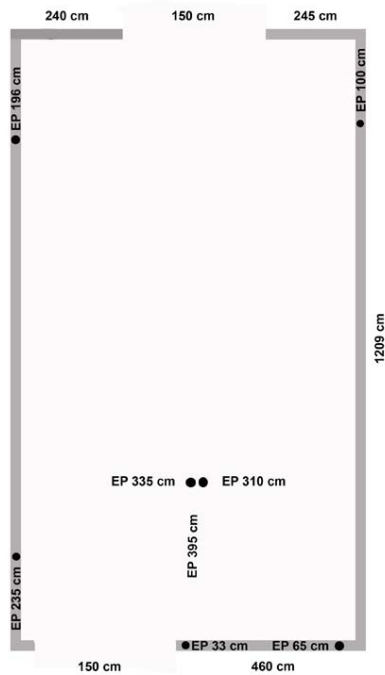

Please note: the gallery's lighting track is positioned at a similar height to the picture rail, positions of lights is fixed.

**Height of doors** – 245 cm

**Electrical points** – dots denote distance from the perpendicular wall or the door opening

- location of single electrical points – positioned at a height of approximately 25 cm from the floor.
- location of double electrical point – positioned in the floor

**Exhibiting artists are strongly encouraged to visit the Gallery to view the exhibition space.**

**Installation considerations**

**Hanging system** (for 2D framed works and stretched canvases fitted with D-rings) – comprises picture rail hooks, stainless steel cables and push-button hooks.

Maximum weight allowances: cables – 30 kg per cable; push-button hooks – 20 kg per hook. Works should be fitted with two D-rings allowing them to be hung from two points and two cables – maximum weight allowance per pair of cables is 60 kg. Small works can be double hung, providing the weight allowance per pair of cables is not exceeded.
